Interzonal	27	" "	430	"
TOTAL	11,241	carloads containing	200,955	tons

2. During March 1948, 793 freight cars containing 13,479 tons of cement were dispatched from Göschwitz. Most of this cement was delivered as reparations. In February 1948, 663 cars containing 10,162 tons of cement were dispatched from Göschwitz. In March 1948, 681 carloads of cement (10,415 tons) were shipped out of Karsdorf. Eighty-one carloads were for industrial use, while 600 went on the reparations account.
3. Reichsbahn Directorate Erfurt shipped 102 carloads of fluorspar out of the district in March 1948. Seventy-four carloads were sent to Kaliningrad.
4. Six thousand carloads of lumber were shipped out of the Erfurt district during March 1948. This compares favorably with the shipments of the previous month (6,206 carloads) but falls below the assigned quota of 7,285 carloads for the month of March. In February 81.1% of the quota was met. Most of the lumber consisted of pulpwood and sawn timber for the reparations account. A shortage of freight cars for the transporting of firewood has caused the accumulation of lumber at the sidings and felling sites.
5. The shipment of lumber to [redacted] Kaliningrad is difficult because so few serviceable cars are available. [redacted]
